

Coleman Schools Have 661 Scholars Receiving Instruction Outside of Cities Coleman Has One of The Largest School Populations in Alberta

The rapid strides made by Coleman during the past few years is strikingly emphasized by the large increase in both adult and minor population. Not only do the local coal companies employ more men in their mines than any other company in a Pass town, but our local schools are giving instruction to more pupils. Excepting the cities, and possibly Drumheller and one town in the north, Coleman leads the province with 661 pupils attending school.

Following is a list showing the enrollment in each grade and the teacher in charge:

- High School—Enrollment 60.
- Grade VIII—Miss Robertson, enrollment 41.
- Grade VII—Miss MacKinnon, enrollment 47.
- Grade VI—Mr. White, enrollment 51.
- Grade V—Miss O'dell, enrollment 48.
- Grades IV and V—Miss Dunlop, enrollment 32.
- Grade IV—Miss Price, enrollment 42.
- Grade III—Miss Hayson, enrollment 50.
- Grade II—Miss Walker, enrollment 46.
- Grade I—Miss Allan, enrollment 42.
- Primary—Miss MacKay, enrollment 43.

West Coleman

- Grades VI and VII—Miss Yuill, enrollment 42.
- Grades IV and V—Miss MacDonald, enrollment 47.
- Grades II and III—Miss E. Dunlop, enrollment 32.
- Primary—Miss Stewart, enrollment 48.

WEDDING.

Denholm—Collins.

The Pythian hall, Coleman, was the scene of a pretty wedding of much local interest on Friday evening, Sept. 11th, when Miss Christina Collins became the bride of Mr. James Spence Denholm, both of Coleman. The bride was given away by Mr. William Pryde. Miss Kathleen Kilgannon acted as bridesmaid and Mr. George Campbell assisted the groom. The ceremony was performed by the Rev. D. K. Allan in the presence of a large number of invited guests.

Following the tying of the nuptial knot a sumptuous wedding supper was served. Dancing and song occupied the balance of the evening. Mr. and Mrs. Denholm are popular young people of Coleman and have the best wishes of a host of friends for a happy married life.

Conservative Convention At Macleod on Friday

Dr. W. H. Keen, president of the Conservative Association for Macleod federal constituency, is issuing a call today for a convention to be held at Macleod on Friday afternoon, September 18th, to nominate a candidate for Parliament at the coming election. A mass meeting will be held at night.

H. B. Bennett will be in attendance at the convention and will address the meeting in the evening.

Coleman Lodge No. 117 B. O. P. E. Instituted

A red letter day in the annals of Coleman Elksdom was celebrated last Wednesday evening when some 107 local citizens joined together under the banner of the Benevolent and Protective Order of Elks of Canada and Newfoundland, in forming Coleman Lodge No. 117.

Following the impressive ceremonies of institution, a slate of officers for the new lodge was submitted to the meeting and upon motion was approved. The officers as installed are as follows:

Most Exalted Ruler—Alex. M. Morrison.

Exalted Ruler—C. W. McKinnon.

Leading Knight—James Loe.

Loyal Knight—George Pattinson.

Lecturing Knight—F. H. Graham.

Trustees—McKeen Hunter, one year; R. Jones, two years; H. C. McBurney, three years.

Chaplain—John Hadfield.

Tyler—R. Rolston.

Esquire—Roscoe Powell.

Secretary—W. L. Rippon.

Treasurer—Chas. S. Oulmette.

Dr. Gibson, of Calgary, as deputy grand exalted ruler, was present and took a leading part in the institutional ceremonies. He was assisted by Robert Gray, exalted ruler, and the officers of Blairmore Lodge.

The Third Degree was put on in masterly style by a degree team from Blairmore under the captaincy of Bro. R. K. Lillie. The large list of candidates were "initiated" to everything on the menu, from soup to nuts, and but one man failed to stand the electrifying tests stipulated by the G. E. R.

At midnight, the meeting adjourned and all assembled at the Grand Union hotel, where a banquet was served in fine style by Manager W. Bell and his staff.

The toast list following was in charge of the new exalted ruler, Bro. McKinnon. His first duty was to propose the toast to "The King," and he proved himself fully equal to the occasion.

The toast to "The Grand Lodge" was proposed by Mr. Alex. Clark, and responded to by Dr. Gillis.

The toast to "The Visitors" was proposed by Mr. George Pattinson, and responded to by Mr. L. L. Morgan of Blairmore.

The new organization is happy in having among its members many of the most enterprising and progressive citizens of the community and as aptly worded by Mr. A. M. Morrison and Mr. C. W. MacKinnon, "The Elks by remembering and living up to their obligations and ideals can accomplish untold good in working wholeheartedly and giving their support to all matters which go to make a happy, united community."

The next meeting of the new lodge takes place on Friday evening of this week at 8 p. m. in the I. O. O. F. hall when the regular meeting nights will be set.

Big Sugar Beet Crop

Harvesting of Alberta's first sugar beet crop on the irrigated districts in the south for the new sugar beet factory at Raymond is commencing. The crop is a large one, and is expected to average 16 or 18 tons to the acre throughout the district, which will give a total harvest of more than 100,000 tons. The factory at Raymond will open for operations shortly. Some farmers expect to get as high as 25 tons of beets to the acre.

LOCAL, PERSONAL AND GENERAL NEWS

Two carloads of Coleman nimrods including Messrs. H. C. McBurney, G. R. Powell, H. Antel, O. E. Whitelake, and J. McLeod journeyed to the prairie Tuesday to spend a few days in quest of ducks.

The directors of the Coleman Crystal Rink Company, at a recent meeting, decided to have the roof of the arena re-covered with Elastic Gum. This work has been found necessary in order to make the roof leak proof. The cost will be in the neighborhood of \$1,000.

Mrs. J. F. Price entertained a number of young people at her home Monday night. The evening was spent in cards and dancing followed by dainty refreshments served by the hostess. Miss May Muir and Mr. T. Holstead carried off honors at cards.

Don't forget the Salvation Army Harvest Festival, Sale and Entertainment in their hall, Monday, September 21st. —4-1 n.p.

Big Oil Company to Operate in Alberta

The famous Dutch Shell Oil company, with activities all over the world, and in which the British government is a heavy shareholder, has decided to enter the Canadian field. This word comes from Ottawa in the latest copy of the official Canadian Gazette, announcing the incorporation of a million dollar Canadian Shell Oil Development company. It is the forecast of big developments in the oil fields of Western Canada where the Shell people have had an eminent geologist, John Irving Moore, investigating the geological structures in Alberta for the last two months.

Miss Agnes Kilgannon recently entered the Holy Cross hospital, Calgary, as a nurse in training, and her many friends in Coleman will wish her every success in her chosen profession.

"Red Michael," (Dr. Michael Clark) one of the most able and outstanding Liberals in Alberta, will be offered the Liberal nomination for his old federal seat of Red Deer.

Miss Wm. Fraser and Mrs. A. H. W. Macleod left Saturday morning for a month's visit with relatives in Spokane, Wash., and Kellogg, Idaho.

Do you want to know what the church teaches? Read the booklets at the church door, St. Alban's church.

You love the old hymns! Come and help them to sing at St. Alban's church at 6:45 p. m. Evening service as usual at 7 p. m.

Messrs. P. Unsworth, Dr. McConghy and W. N. Donaldson, spent Tuesday hunting the wily duck around Plover Creek.

Now that the Blairmore teachers' dispute has gone to the courts we sincerely hope the Blairmore paper will have the decency to take up another hobby.

Nomination Day, Oct. 15th.

Macleod is one of 37 constituencies in the Dominion which will nominate candidates one week in advance of the day set for the others. These constituencies cover such large areas that the returning officers cannot get over them in a week. Peace River and Athabasca are the other Alberta constituencies which will nominate on October 15th.

Mr. E. Leduc, Sr., is erecting a cottage on Seventh street, where he intends residing.

Mr. and Mrs. Geo. Pattinson and Mr. and Mrs. Thos. Flynn motored to Fernie on Sunday.

Sisters of Charity from the Lacombe Orphanage, Midnapore, spent the past week in Coleman soliciting funds to help carry on this worthy institution. The sisters report a very generous response to their appeals from the citizens of Coleman.

Don't stand around town in the cold. A warm welcome awaits you at the Reading Room in St. Alban's hall. Every week day (except Monday) 10 a. m. to 1 p. m., and Wednesday evening 7 to 10 p. m. A circulating library also available.

Come and enjoy yourself at the Salvation Army Festival on Monday, Sept. 21st. —4-1 n.p.

Sam Hatfield and S. Coley spent the week-end at the Racehorse where they enjoyed some splendid fishing. Sam brought in two speckles and a grayling which weighed 4 lbs. 4 ozs. The one unpleasant feature of their trip was the theft of most of their fish which were cached under some leaves near the river bank. Sam hopes the party who took them will choke on a bone when eating them.

T. Holstead and W. Lonsbury returned Sunday evening from a two weeks motor trip to Calgary and other points north.

Mr. and Mrs. James Ford returned on Monday from an auto trip which took them to Spokane and Creston.

The miscellaneous products of dairy factories in Canada in 1924 comprised every butter and ice cream, and cream, whole milk, dry cream and buttermilk sold. The total value of these products in 1924 was \$28,465,559, an increase of nearly two million dollars compared with the preceding year according to the Dominion Bureau of Statistics.

The first communion service of the United Church will be held on Sunday next, September 20th, at 11 a. m. The Lord's Supper will be administered. The evening service at 7 o'clock.

The Ladies Auxiliary of the United Church are holding an Apron and Pantry Sale and Tea in the club room on Saturday, Sept. 19th from 8:30 p. m. to 5:30 p. m.

Any visitor to the English Church at Coleman will find social and religious activities for old and young. The aim is a "live" church in a "live" town all the week. The old church of the British people invites you to come and see for yourself. If you belong to some other religious body in town, we welcome you to our social life, if you don't go any where why not try the old religion that has been the British people's best friend all down the ages.

Many Autos Registered

More than 82,000 cars are operating in Alberta this year, compared with something over 47,000 in 1924. The total receipts from car license thus far this year have been \$912,000, compared with \$845,000 for the entire year of 1924.

Local Liberals Hold Meeting, Elect Officers

An enthusiastic and representative meeting of the Liberals of Coleman took place last Friday evening in the I. O. O. F. hall, for the purpose of reorganizing the government forces here to support the Liberal standard bearer, Mr. T. C. Milne, of Chesholm, in the forthcoming Dominion election.

A strong organization was chosen to look after the party's interests in this part of the Macleod riding when the following gentlemen were elected:

Hon. Presidents—Hon. MacKenzie King, Hon. Charles Mitchell.

Hon. Vice-Pres.—Hon. Charles Stewart.

President—Mr. Geo. Kellock.

Secretary—Mr. P. H. Locke.

Treasurer—Mr. A. H. O'Neill.

Executive—Messrs. A. M. Morrison, S. Lecky, R. McLeod, J. Steveluk, C. S. Oulmette, H. C. McBurney, J. Stephenson and E. Leduc.

Lower Freight Rates West
Will Help Mining Industry

The new equalized freight rates west to the Pacific, which went into effect on Tuesday, will no doubt greatly increase the business of the railways rolling westward, and will be a real boon to not only the farmers in Alberta and Saskatchewan, but will also help the railroad men and miners of Alberta.

More freight rolling westward requires additional freight cars, more engines mean an increased demand for steam coal, thus giving more employment to those engaged in mining in Alberta.

Those who have waged the long battle to equalize rates east and west have contended that hauling freight west to the Pacific is no more costly for the railways than hauling freight east for the same distance. On the Canadian National from Edmonton to Vancouver there is less resistance (less motive power required) than from Edmonton eastward to Fort William, while the grades on the Canadian Pacific from Calgary to Vancouver have been largely ironed out by tunnels. From Edmonton to Vancouver, a distance of 640 miles, one freight engine, excepting for 16 miles, can haul 90 carloads. This cannot be done on the haul eastward to Fort William.

The total value of these products in 1924 was \$28,465,559, an increase of nearly two million dollars compared with the preceding year according to the Dominion Bureau of Statistics.

The contest between Coleman and Newcastle was not finished owing to the fact that Rankin and Penman accounted for their opponents by thirteen shots, and the lead obtained between them and the other Coleman players did not warrant the tie being played, thus the Coleman team were placed in the finals with the Central Club.

The Coming General Election

The outstanding event of the week in which this article is written was the dissolution of Parliament and the calling of a general election to take place next month to choose a new House of Commons. This is a matter in which every citizen of Canada is vitally interested, regardless of individual party views and affiliations or position occupied in the economic life of the Dominion.

The fortunes of political parties are not the concern of this particular column; what we are concerned about are the fortunes of the Dominion of Canada, and, in particular, of Western Canada because of a profound conviction that it will only be through the settlement, the development, the prosperity of this vast western land that permanent growth and prosperity will come to the Dominion as a whole. Support given, or opposition voiced, in this column to any given policy in the past, or that may be given or voiced in the future, is not because such policy may originate with any particular political party, but because of its bearing on Canada's progress and prosperity.

In the coming election, as in all elections, many conscientious voters will find themselves in some-what of a quandary just how to mark their ballot paper. They not only will be called upon to choose from among the candidates offering for election the man or woman to be their representative at Ottawa, but, while making that choice, they must also consider a verdict on the larger national issue of the policies and group of men they desire to rule at Ottawa.

Because of this double responsibility, many voters find themselves in difficulties. If it was merely a case of selecting their local representative, the task would be comparatively simple, namely, voting for the candidate who in their judgment was the most upright, the ablest, best informed and most intelligent, and therefore likely to prove the most capable representative. But it is not infrequently happens that this particular candidate is standing in support of policies and leaders which the individual voter is not prepared to support, while a less capable man is the candidate supporting policies and leaders in which he has confidence. The problem is there, but in the final analysis it must be decided by the voter.

One thing the individual voter can do, and that is to use all his influence to ensure the selection of a candidate in whom he has every confidence as a local representative by the party whose policies he supports and in whose leaders he has confidence. Such action on his part is one of the duties of citizenship which the individual voter owes to his country.

Another course of action on the part of the individual voter is to refrain from pledging his support to any one candidate until all the candidates are in the field, and the opposing policies of the contending parties are clearly outlined and understood. Nobody should pledge such a valuable thing as their vote "in the dark" and without full knowledge of all the facts which have a bearing in the election.

In the approaching election there is another and grave consideration which must influence the voter in the marking of his ballot. Since Confederation, with the exception of the last four years, the party in power at Ottawa, whether Liberal, Conservative or Unionist, has always commanded a substantial and working majority. It was able to govern, and it was guilty of neglect and failure to grapple and deal with national problems, the responsibility rested squarely on its shoulders.

During the past four years the Government of the day did not possess such a majority. The House of Commons was divided into three distinct groups, each with policies of their own. The outstanding feature of Conservative policy was wholly unacceptable to the Progressive group and to the vast majority of the Government following; the principles and primary features of Progressive policy were equally unacceptable to the Conservatives and to a certain section of the Liberals. Inasmuch as the Government of the day had to depend upon the support of one group or the other, a deadlock usually resulted, and party considerations and manoeuvrings became paramount to the national welfare and progress.

As a result, Canada has drifted at a time when decisive action was urgently needed. Ever since the situation. The Opposition make its charge against the Government; the Government admits the situation has existed but holds itself blameless in view of the conditions which confronted it.

Great Britain suffered from exactly the same situation until an election became imperative. Then the people put an end to an impossible situation by returning one party with an overwhelming majority and a clear mandate to govern. In the last United States election the voters were faced with a similar problem, and they, too, decided in the interests of good government to give one group a clear and substantial working majority.

In the election next month the voters of Canada must face this issue and decide it. Regardless of the outcome of the vote, it is important that decisive action one way or the other be taken, and an end put to present indecision and drifting leading to worse than stagnation in the development and carrying into effect of policies and reforms calculated to promote the national welfare.

Perhaps, the most elaborate, and therefore the most perplexing, national flag is that of Tibet, because, apart from the main design, which is curiously complex, the spaces in it are filled up with alternate triangles of red and blue.

A deer which is a confirmed tobacco chewer is a curiosity of the zoo in Racine, Wis.

Children Cry for

MOTHER— Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulence, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food and the natural sleep.

To avoid imitations, always look for the signature of **Dr. J. C. Fletcher** Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Latest Triumph Of British Optical Industry

Make Better Lenses Than Any Other Country in the World
A cinematograph machine which will take 4,800 pictures a second is one of the latest triumphs of British makers of optical instruments. It can be used to show, for example, the effect of the impact of projectiles on armored plate.

This is only one of the many remarkable results achieved since the war which have placed the British optical industry far ahead of foreign rivals. Before the war, lenses ground in Germany were believed to be the best; now, British lenses are being bought by the German Government for German state institutions.

Swollen Joints, Quickly Limbered Up

Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in just such cases. Rubbing this and not oil preparation, is able to penetrate quickly, and down it sinks into the tissues, carrying its healing, soothing action, wherever it goes. For stopping muscular or nerve pain, for easing a stiff joint, Nerviline is a most useful remedy. Swollen joints, stiffness all vanish before the magic power of this wonderful liniment. Nearly fifty years of success prove the merit of Nerviline, which is sold everywhere in large 50 cent bottles.

Paper Made From African Grass

It is made from a grass which grows in wild grasses, has been produced by the bureau of standards on a commercial basis and samples have been made available to American industry as a government test. The bureau's records show that the imported grass, after cleaning gave a 68 per cent yield of papermaking fibre.

NEARING A BREAKDOWN

A Condition That Calls For a Reliable Tonic

Many women give so much of their time to the cares of their household that they neglect their own health and sometimes reach the verge of a breakdown before they realize that their health is shattered. Often the heart palpitates, the stomach fails to digest food and discomfort follows. The nerves become weak and headaches grow more frequent. The body grows thin and they are always tired. This condition requires immediate treatment with such a reliable tonic as Dr. Williams' Pink Pills which rebuild and build up the blood, carrying renewed energy to every part of the body. The value of Dr. Williams' Pink Pills in a rundown condition is proved by the following statement from Mrs. A. V. McInnes, Roseville, Minn.: "About a year ago I had a serious illness which left me very anemic. I was not able to get around to do my work; in fact I could scarcely walk. I was troubled with palpitations of the heart with the least exertion. One day a friend said 'Get some of Dr. Williams' Pink Pills' and she said 'I don't know what good it followed this advice and took the pills for some weeks when I felt as well as ever. I have since been able to attend to all my household duties. The condition of my health has left me and I bless the day I tried Dr. Williams' Pink Pills. They are just the medicine for those who are weak and run down.'"

You can get these pills from any dealer or by mail at the box from The Dr. Williams' Medicine Co., Brockton, Ont.

Riflemen Are Good Fighters

Are Holding Their Own Against

The Riflemen in Morocco will be able to maintain their independence against the French and Spaniards for some time, in the opinion of Sir Charles Hobson, former British army officer, and ex-postmaster-general, who has returned to London from inspecting the condition of the Rifian refugees at Tangier, on behalf of the League of Nations.

"Despite grinding taxes, the Rifians are holding their own against France and Spain," he told the newspapermen. "It will undoubtedly be a case of Europe against Africa, if the war is carried on, and it looks as if Africa will hold her own, and a little more."

"The Rifians are good fighters. They have up-to-date equipment, and their leader, Abdel-Krim, is a man of remarkable military capacity."

Ottawa, in Canada; Sydney, Melbourne and Perth, in Australia; and Pretoria in South Africa all have the right to mint their own gold coins.

The bones and muscles of the human body are capable of more than 1,200 different motions.

Destruction of livestock by wolves during the last year in Russia entailed a loss of 4,000,000 gold rubles.

HARD PIMPLES ALL OVER FACE

For About Three Years.
Healed by Cuticura.

"I had trouble with pimples and blackheads for about three years. The pimples were scattered all over my face and were hard and red. They itched and caused a lot of scratching and caused eruptions. My face looked so badly that I was ashamed to go out."

I began using Cuticura Soap and Ointment and they helped me. I continued the treatment and in two months my face was completely healed. (Signed) Miss Helen Budnik, R. 1, Box 11, Needah, Wis., Sept. 27, 1924.

Relay on Cuticura Soap, Ointment and Talcum to keep your skin clear. Sample Card Free by Mail. Address: **Cuticura Division, P. O. Box 100, Portland, Me.**—Cuticura Shaving Stick Free.

Scared the Passengers

A Budapest train was leaving the Belgrade Park Station, London, when there was a loud bang. Several women screamed, the conductor looked uneasy, one housewife with a handful of parcels jumped up and made for the door.

A child sobbed—and looked reproachfully at her right hand, which held a piece of string and the fragments of a 'toy balloon.

Like a Grip at the Throat

For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in increasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages, restores normal breathing. It is sold by dealers everywhere.

Last of the Peace Pipes

Ancient Indian Curio Sent to New York From Saskatchewan

Swathed in its original wrappings, some of the inner materials being hundreds of years old, one of the oldest relics on the American continent is now on its way to New York to its long rest in the museum of American Heye Foundation, an institution devoted exclusively to Indian relics.

J. A. Coulton, curator of the museum, was in Regina recently after more than a month spent in the various reserves in Saskatchewan. He secured a mass of old knives, arrows, and the pipe he was after and secured was possibly the last of the peace pipes retained by the Cree.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with their fingers. Dr. Williams' Pink Pills will surely trouble them no more in time applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

No Shortage Of Insulin

Prof. J. R. MacLeod, of the University of Toronto, who was associated with Dr. Insulin in the discovery of insulin, addressed the physiological section of the British Association for the Advancement of Science, saying that insulin was procurable in great quantities from the islet masses of the pancreas. There could be an enormous yield of insulin from this source, but there was no longer any shortage, as insulin could be obtained in sufficient quantities from the pancreas of the ox.

Printer's Sick Stomach and Headaches Almost Cost Job

French Machine Carries Heaviest
Armament Ever Used

The French in Morocco are using a new type of fighting plane carrying the heaviest armament ever used. It is made of metal and not of wood. Besides machine guns, the plane carries special quick-firing guns of a calibre of one and a half inches. Each plane is manned by a crew of five men.

The new planes belong to the naval service. Possessing a large radius of action, they are considered the most powerful machines of the air today.

Among other new weapons the French are experimenting with is an appliance enabling bombers to throw hand grenades 150 yards.

Corns are painful growths. Holladay's Corn Remover will remove them.

The fattest man who ever lived was probably Daniel Lambert, who was born at Leicester, England, in 1770, and died in 1809. His weight was 728 pounds. A group of a dozen young men once stood within a buttoned waistcoat that had belonged to Lambert.

Recommended and for sale by all drug stores.

SUNDAY SCHOOL LESSON

SEPTEMBER 29

PAUL WRITES TO THE THESSALONIANS

Golden Text: In everything give thanks. I. Thessalonians 5:18
Lesson: I. Thessalonians 1 to 5
Devotional Reading: I. Thessalonians 2:13-17

The Text Explained and Illumined
Paul's motives were genuine, verses 1, 2—"You yourselves, brothers, know that our mission to you was a necessity," Paul writes the Thessalonians. "Although at Philippi we had suffered greatly and had been flogged (recall the scourging and imprisonment there, lesson 13), yet now we came to you and boldly declared to you the gospel of God in spite of great opposition." Recall the words of Jesus in Luke 9:23: "Who would hold to his life, let him lose it." Thus Paul asserts that the strength to persevere in spite of suffering was divinely given. And his argument here is that his motives were not the best, he would not have persevered in his work under such untoward circumstances. "You never understood Paul aright," as Professor Hanna says, "unless you estimate his action on the highest plane of human motive."

For the slanders which Paul wrote to make this defense of his motives and to assure him of his mission, the suggestion for beginning the Lesson, First Topic.

Looked at as a whole, this passage warns us against slanders. Paul was slandered; they said he was a very smart man, who looked well to his own interest and made dupes of simple people. The deliberate wickedness of such slanders is disabused but it is not so very rare. Numbers of people who would not invent such slanders to hurt them. Be on your guard against sympathy with detractors and give no attention to a slandering thought. Never repeat what would discredit a man, if you have only heard it and are not sure it is true; even if you are sure of its truth, be afraid of yourself if it gives you the least reason to think of it. (Think not of evil, love jealousy not in kind.) (Dr. James Denney)

Building A Dispensation

Spirit of Consideration Has to be Cultivated Early

"Well, I do hope that when I reach the age where I have to be taken care of, I shall be willing to let other people have their way instead of insisting upon my own and making it hard for others to do so," said a clear-headed voice as the three women parted at the street corner. They had been discussing the troubles of an acquaintance. As the speaker departed, the two looked at each other with a significant smile. This friend of theirs was one who had great faith in her own wisdom.

"I am afraid that virtue does not develop suddenly," remarked the one, "but the person who is to be gentle and unselfishly considerate in old age has to begin to cultivate that spirit much earlier."

That is the story of so many of our failures to attain our ideals. We do not begin to practice their graces early enough. The strong self-controlled, useful manhood or womanhood does not grow naturally from a careless, self-indulgent youth, and the beautiful old age that is a benediction is not likely to appear from the hasty, domineering spirit that has been allowed to rule middle life. Character is a garden whose gracious flowering calls for early planting.

Worms in children work havoc. These pests attack the lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powder will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

Using New Type Of Fighting Plane

French Machine Carries Heaviest
Armament Ever Used

The French in Morocco are using a new type of fighting plane carrying the heaviest armament ever used. It is made of metal and not of wood. Besides machine guns, the plane carries special quick-firing guns of a calibre of one and a half inches. Each plane is manned by a crew of five men.

The new planes belong to the naval service. Possessing a large radius of action, they are considered the most powerful machines of the air today.

Among other new weapons the French are experimenting with is an appliance enabling bombers to throw hand grenades 150 yards.

DOMINION LOAN SETS A RECORD FOR FINANCING

Toronto.—Judging by orders received for the Dominion loan, 1925 has almost set a record for successful government financing. Orders for financial institutions have been larger than in either of the previous financing loans, each of which was recorded as a highly successful. Had all the orders received from institutions been accepted in full, only a small amount of bonds would have been available for other classes of investors. It is understood, however, that the large orders have been scaled down by the syndicate to the extent of more than 50 per cent. and, as a result, more than one-half of the loan will be available to the smaller private buyers. In adopting this plan, the syndicate has followed its policy of endeavoring to arrange, as far as possible, to fill all orders from private investors in order to assure a coast to coast distribution of the new loan.

It is a fact that a new Dominion loan brings out a certain class of investor who will show little signs of being lulled for several months previous to the receipt of the financial stability of Canada and Canadians. The fact that Canada has proven herself fully capable of financing her own affairs plays an important part in so strengthening Canada's credit abroad that her securities are in demand in the principal money markets of the world.

Heads Grain Exchange

Officers Elected at Winnipeg For the Ensuing Year
Winnipeg.—D. C. MacLachlan, manager of the Western Elevator Company, was elected president of the Winnipeg Grain Exchange for the term ending August 31, at the annual meeting of the exchange members. A. Thompson, manager of the International Elevator Company, and N. J. Brech, western manager of the Lake of the Woods Milling Company, were chosen vice-presidents. Dr. Robert Magill was returned as secretary by acclamation.

The executive council of committees were also elected.

British Subjects Only

Government of Western Australia Will Not Employ Foreigners
Perth, Australia.—The Government of Western Australia, having learned that foreigners have been engaged in proportion of the work offered in connection with the clearing of land for the purpose of cultivation, has decided to limit future any money advances made to settlers by the Agricultural Bank to finance such work shall be made on the condition that only British subjects shall be employed.

Hoey With Wheat Pool
Winnipeg.—The appointment of R. A. Hoey, M.P. for Springfield, to the position of assistant director of the newly-formed department of publicity and education of the Manitoba Wheat Pool, was announced here. Mr. Hoey's withdrawal from political life was foreboded in a Canadian Press dispatch.

Bessarabian Peasants on Trial
Vienna.—The Abende says it learns that 800 Bessarabian peasants are now on trial at Kishinev, Rumania, by a military tribunal. They were arrested by a Rumanian punitive expedition following discovery of an alleged plot to deliver Bessarabia over to Soviet Russia.

Fruit Houses Amalgamated
Winnipeg.—J. A. Stimson, Minneapolis, director of the Nash Fruit Company in Western Canada, has confirmed a previous announcement that the Nash companies had been amalgamated under the name of the Nash-Stimson Company.

Increased Unemployment in Britain
London.—Unemployment in Great Britain continues rapidly to increase. The report for August 31 shows a total of 1,254,169 persons unemployed, which is 10,242 more than the previous week, and 191,229 over last year.

Monarch Is A Hero
Sofia.—King Boris played the role of hero recently when he jumped from a moving automobile and stopped a team of runaway horses, probably saving the lives of several children.

Letting out cars on life to destroy remains in offices and warehouses is becoming a thriving industry in London.

Cabinet Ministers Sworn In

Hon. J. A. Robb Succeeds Fielding As Minister of Finance

Ottawa.—The cabinet re-organization was officially completed when Hon. J. A. Robb was sworn in as minister of finance and Hon. Herbert Morrison, as minister without portfolio. The two ministers were sworn in by E. J. LeMay, clerk of the privy council, in the presence of His Excellency Lord Byng at Government House.

Should the present government be returned to power, there is likely to be further re-adjustment of the cabinet.

Two ministers, Hon. Charles Murphy and Hon. Dr. Boland are, it is understood, retaining office only until the elections are over and there will then be some re-adjointing of portfolios.

Mr. Robb has been acting minister of finance for some time, owing to the illness of the veteran parliamentarian, Rt. Hon. W. S. Fielding, who has now been relieved, after many years of service to his country.

Return Historic Shield

Escutcheon Taken From Quebec Is Presented to City After Long Sojourn in England

Quebec.—Coinciding with the one hundred thirty-sixth anniversary of the battle of the Plains of Abraham, this battle and the subsequent capitulation of Quebec to the British troops were revived to the world when on June 24, 1925, the historic shield of the city of Quebec, taken from the walls of Quebec by General Murray after the capitulation of the city, and afterwards handed to the city of Hastings for safe-keeping, was officially returned to the city of Quebec as a goodwill offering from England to French-Canadians.

Hon. P. C. Larkin, Canadian high commissioner in London, handed over the shield to Quebec as the official representative of the town of Hastings, England, after the unveiling ceremony by Hon. N. Perceval, lieutenant-governor.

Canadians Coming Back

Over 50,000 Have Returned From U. S. in One Year

Ottawa.—Immigration to Canada for the first three months of the present fiscal year, that is, from April 1 to June 30, 1925, totalled 53,419, according to a report issued by the department of immigration.

Of this total, 16,094 came from Great Britain, Northern Ireland and the United States, 5,807 from the United States and 11,043 from other countries, almost entirely from Northern Europe.

In the same three months 9,141 Canadian who had been in the United States for six months or longer, and who went to that country to settle, returned to the Dominion.

Since the department of immigration and colonization began to keep a record of these returning Canadians on April 1, 1924, a total of 123,916 have come back up to the end of last June.

Dease Lake Promise Was Not Fulfilled

Disappointed Miners Start Trek Back From Cassiar Field

Telegraph Creek, B.C.—The trek back from the Cassiar is being trodden today by a host of disappointed miners whose hopes of quick wealth in the placer fields of Dease Lake have been blasted by the cruel reality of life in the inhospitable northland.

A few small strikes have been made, but there is little to show for all the excitement that was stirred up last winter by the announcement of the discovery of free gold in the ancient mining camp which was abandoned in the late nineties with the dawn of the Klondike glory.

Canada-U.S. Drug Pact

League of Nations to Study Recent

Geneva.—Governments represented in the League of Nations are to study the recent extradition treaty between Canada and the United States covering opium and other dangerous drugs with a view to the conclusion of similar treaties among them. A recommendation to this effect was approved by the league council on recommendation of its permanent opium commission.

Ku Klux Klan in Berlin
Berlin.—The Berlin police announce that they have uncovered a movement, headed by three United States citizens, and participated in by about 1,000 Germans, for the establishment of an order to be known as the "Knights of the Fiery Cross," along the lines of the Ku Klux Klan.

Veteran Newspaper Man Passes

W. B. Ballantyne, Editor of the Journal at Emerson, Man., Died Suddenly at His Home in Emerson, Man., Monday, September 7, from a stroke of paralysis.

Mr. Ballantyne was one of the veterans of journalism in Manitoba. He had been publishing the Journal for over 30 years, and previous to that time had been foreman in the office of the weekly, which was a long record of service to the district. "Last year Mr. Ballantyne, with Mrs. Ballantyne spent the summer in the Old Country, visiting Wexham with the Western Canadian editors. Mr. Ballantyne was on the executive of the Western Press Association, was a prominent Freemason, and is survived by his wife, who formerly was Mrs. (Dr.) Henderson, pioneer of Winnipeg and Stonewall. There are children.

There are children.

APPOINT BOARD FOR ADJUSTING LABOR DISPUTES

Ottawa.—The establishment of a board of adjustment on the Canadian National Railways to deal with grievances or disputes not otherwise adjustable arising from the application of wages and working conditions schedules as affecting clerical, station, shop, shed, roundhouse and similar classes of employees was made public by representatives of the employees. The new board is similar in constitution to board of adjustment No. 1, which has been functioning for a number of years in connection with grievances of conductors, engineers, firemen, trainmen, maintenance of way employees and others.

Under the agreement just signed by representatives of the railways and the employees, the new board will be composed of eight members, four from the railways management and four from the employees. The chairman and vice-chairman will hold office six months and will be selected alternately from the management and the employees. To the board will be brought all matters of dispute arising from the application of the schedules, and which have failed in settlement between the officers of the railway and the representatives of the employees. Decisions of the board will be final and binding upon both parties.

Has Denounced Bolsheviks

Premier of Australia Takes Stand Against Communism
Melbourne.—The disturbed conditions in Australia have caused Premier Bruce to take a definite stand against the Communists.

In a public address here the premier denounced the local exponent of Bolshevism, and asserted he would not hesitate to appeal to the people for endorsement of his action. If necessary, he would seek a mandate for further action to insure peace and good government.

Warrants have been issued for four hundred Melbourne seamen for their part in the industrial strike against the recently announced wage decrease.

ACTION ON B.C. GRAIN RATE CASE TO BE DEFERRED

Vancouver.—Decision on British Columbia's application for revision of the scale of rates on grain coming west for domestic consumption will not be rendered prior to a general revision of freight rates, according to a letter received by the Vancouver board of trade from Hon. H. A. McKenna, chairman of the board of railway commissioners for Canada.

Mr. McKenna takes the position that the seasonal movement of export grain demanded early action, while the same element of urgency was not present in the case of domestic grain rates. The same applies to express rates, which the board has been asked for an amendment.

Victory.—That the railway commission's recent order equalizing export grain rates will not be affected by the resolution of three members of the commission who did not take part in the judgment, was the opinion expressed by Premier Oliver after he had examined copies of the documents.

Cowboy-Earl Likes Ranching

Wyoming-Man Who Inherited Title Will Remain in U. S.

Shelton, Wyo.—Oliver Henry Wallop, aged 62, Wyoming rancher, who succeeded to the title of Earl of Portsmouth through the death of his elder brother, John Felices Wallop, seventh Earl of Portsmouth, in London, will remain in the United States, citizenship and legal residence in this country, and plans to continue living on his 3,000-acre ranch near Sheridan after he assumes the title.

The earl did not appear to regard his rise to the British peerage as extraordinary, and his answer to queries about his departure for England to assume the earldom was that he intended merely to visit his native land, be invested with the title, and "then return to his cattle ranch."

During the fall of 1883, Wallop went to Canada on a hunting expedition. From there he wandered to Wyoming, where he founded a colony of Englishmen near Sheridan. He liked it and bought a ranch.

Plans For Super-Zeppelin

U. S. May Build One Twice As Large as the Shenandoah

Akron, O.—Plans for a gigantic super-zeppelin (twice the size of the Los Angeles or the ill-fated Shenandoah), and safer than either, are being drawn up here by the experts of the Goodyear-Zeppelin corporation.

Dr. Karl Aratels and Capt. Ernst Lehmann, German zeppelin experts who are now vice-presidents of the concern, are in charge of the plans. The proposed super-zeppelin has been christened in advance the GZ-1.

The experts look forward not only to building this super-ship, but to a day when they will build yet larger ships.

They believe that the larger ship would weather the most severe storm. In fact, they feel that smaller ships can also ride the severest storm.

The proposed GZ-1 would hold 5,000,000 cubic feet of helium. The Los Angeles holds 2,500,000 cubic feet, while the Shenandoah held 2,150,000.

Earth Is Slowing Down

Washington.—The earth is slowing down, says a recent publication of the Smithsonian Institution. But there is little danger of a cessation of the rotary motion, for the rate of slowing down is only one thousandth of a second per century.

This means a loss of a minute in six million years. Scientists estimate that ages and ages ago the earth revolved so fast that a day was three or four hours.

Seize Canadian Schooner

New London, Conn.—The Canadian schooner Dawn, of Lunenburg, N.S., was seized in Narragansett Bay when it was found attempting to escape from a patrol boat.

Japan Fighting "Red" Propaganda

Country Fears Effects of Interference With Soviet Russia

Tokyo.—Fear of Bolshevist propaganda in Japan is ever present among the heads of the government and it was recently reported that the home department is planning to introduce a bill at the next Diet session for the organization of a special police service to deal with the situation. It is said that the bill would authorize a yearly outlay of 1,000,000 yen to be asked for this purpose.

The government has not been averse to adopting measures calculated to be effective in coping with outward developments that may follow the reopening of the country for intercourse with Soviet Russia. Of these measures the most important is, of course, the new peace preservation law, which the Diet voted at its last session.

It has been found that channels for the introduction of "Red" propaganda are rapidly increasing owing to the growing frequency with which the peoples of the two countries are exchanging visits for commercial, touring and other purposes and also because of the freedom with which new publications are being imported.

The home office regards it as important in some cases that a police service of special nature be perfected to deal with the problem of propagation of radical thoughts.

Canada Not Thinking Of Annexation

Has No Idea of Joining U. S. Says Premier King

Toronto.—"Canadians are no more thinking of annexation with the United States than they are of the United States are thinking of annexation to the British Empire," said Rt. Hon. Mackenzie King, premier of Canada, at the directors' luncheon in "International Day" of the Canadian National Exhibition.

Mr. King added, amid laughter, that the idea of annexation of Great Britain and the United States of America would be a "very serious matter."

The prime minister said that so far as he was concerned he would oppose with all his might the idea of annexation of Canada and the United States.

UNITY IN CANADA IS STRESSED AT QUEBEC MEETING

Quebec.—Unity on the part of all the provinces in the Dominion was the keynote of the addresses delivered here at the reception tendered by Hon. Mr. Poirer, lieutenant-governor of Quebec, to lieutenant-governors of Canada.

Among the speakers were: Sir James A. M. Atkins, lieutenant-governor of Manitoba; Col. Hon. Harry Cockburn, lieutenant-governor of Ontario; and Premier Taschereau of Quebec.

Hon. Harry Cockburn said the drawing together of the different provinces was greatly to be desired in Canada. Sir James Atkins said the unfortunate thing was the Canadians did not understand each other.

"When I think of Canada, of its splendid future," he said, "and when I think of the province of Quebec, I call it the anchor of stability upon a troubled sea, as Canada could not be Canada if it were not for Quebec."

Premier Taschereau, after welcoming the lieutenant-governors and explaining the hopes and ambitions of the French-Canadians, said: "My motto is unity in diversity, and nowhere in this Dominion will you find a more Canadian spirit and a more friendly and sympathetic feeling towards the English than in Quebec."

British Columbia's portugal summer, western wheat, Ontario's industrial possibilities, Quebec's natural resources and the Maritime's sea and forest wealth, if unified, are the foundations of our great future."

CANADA'S WHEAT YIELD ESTIMATE 391,819,000 BUS.

Ottawa.—Canada's wheat yield of 391,819,000 bushels for 1925 is the preliminary estimate of the bureau of statistics recently issued. The yield last year was 262,000,000 bushels.

The average yield in bushels per acre for 1925 is estimated at 25.8 bushels, compared with 23.8 bushels per acre for 1924.

The fall wheat estimate for this year is 23,697,000 bushels and spring wheat 368,122,000. The estimate for oats is 514,837,000 bushels, as compared with 466,974,000 bushels in 1924. The total for 1925 is estimated at 15,627,000 bushels, compared with slightly over 13,000,000 in 1924.

In the Atlantic provinces the weather has been ideal and a bountiful harvest is anticipated. The weather in Quebec the prospect for grain crops is generally favorable.

In Ontario "splendid harvest weather" has prevailed, threshing is well advanced and grain crops are yielding well above the average. The weather in Manitoba has been favorable for harvesting, and threshing will become general at the end of the month. Considerable damage has been caused by rust, both yield and grade of wheat being reduced, but the yields are still generally above those of the ten-year average in Saskatchewan all grain crops early. Except for showers, about August 23, the weather was very favorable for harvesting, and cutting was well advanced at the end of the month when threshing had begun.

The main source of the injury to crops are drought and heat. In Alberta ideal weather has prevailed for harvesting, but heavy rains fell in the north. Prospects generally are for only average crops.

In British Columbia, showers during late August greatly benefited pasture and late crops.

Anthracite Prices Advance

Predicted Cost Will Further Increase

Washington.—The fact that retailers are beginning to increase prices of anthracite coal are arising from a number of cities. Predictions are made that prices will be still further increased if the strike continues, and that consumers here and in Canada will bear the burden.

Meanwhile, there are no signs that the administration plans to intervene in the strike, and the outlook still apparently drifts on indefinitely.

50 Million Feet of Lumber Destroyed

Hawkesbury, Ont.—More than 50 million feet of lumber property of the Hawkesbury Lumber Company, Ltd., was destroyed by fire which broke out in a pile at the west end of the island on which the company's yards, mills and homes are situated, just opposite this town on the Ottawa River.

The loss is being by R. L. Blackburn, of Ottawa, managing director, at \$7,000,000, which is stated to be well covered by insurance.

Increased Output of German Wheat
Ottawa.—The official statement of Germany's production of wheat this year is 106,667,000 bushels, against 82,000,000 last year, according to a cablegram received by the department of agriculture.

The area sown to wheat in Argentina, according to a revised estimate, is 12,828,000 acres, as compared with 11,792,000 the last year, and the condition of the crop is excellent.

Want Embargo Removed

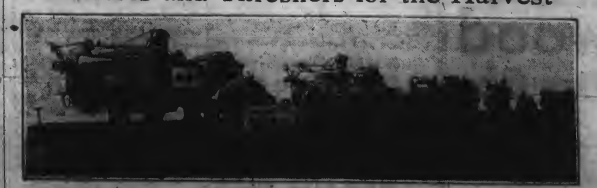

Vancouver.—Requests for the lifting of an embargo on Canadian apples, which has been enforced for the last five years, have been filed with the Japanese Government, according to consular officials here. Samples of the new crop are to be shipped to Japan as soon as possible, and if they are pronounced free from the larvae of the codling moth, the embargo will be lifted, it is expected.

Advocates Buy Route
Regina.—That the Hudson's Bay Railway is feasible and that an early completion of the construction is desirable is the opinion of C. C. Cooke, of this city, who has been invited from a trip to the Bay by rail and water, with a party of western businessmen. Much material and considerable water power is available for harbor facilities at the end of the line, he states.

Surrender to Spaniards

London.—A dispatch to the Daily Express from Tangier says the Tammam tribe, one of the most important in Morocco, surrendered unconditionally to the Spaniards when they landed at Alhucemas Bay.

Tractors and Threshers for the Harvest

Part of a record shipment of tractors and threshers for the J. I. Case Threshing Machine Company, of Toronto, which left there recently over Canadian Pacific lines for the western wheat fields.

THURSDAY, SEPTEMBER 17, 1925

IN WHICH CLASS ARE YOU?

There used to be a song quite popular called "The Old Time Religion," and one line ran like this: "It was good for Paul and Silas and it's good enough for me."

That song has fine sentiment. Every word of it rings with truth and devotion. It is manifestly religious and fervent in its nature. The spirit of the song is fundamental, and therein lies its greatness.

In the application of the truth from which the song referred to was inspired, a gross misapplication of a similar principle is very often encountered in relation to community development. Many proposals of public improvements are met with the objection that "inasmuch as we have gotten along these many years without them we can continue to do without them."

There is a wide distinction between the meaning of the good-enough-for-me song on the one hand and the mentioned objection on the other. In the one case the appeal is made for adherence to divine principle, which means progress if it means anything; in the other case the objection is diametrically opposed to progress. The good-enough-for-me attitude is one that should carry little weight in the program of material development.

THE ELECTION ISSUE

There is a straight, clean-cut issue in the coming Dominion election.

The Conservative platform is based on a high tariff policy, while the Liberal party is for "tariff for revenue only."

The Conservatives claim that under low tariffs Canada has made very slow progress, her industrial life has been stifled, and many of her best citizens have gone to the United States in order to earn a living.

The Liberals claim a high tariff imposes too great a penalty on the farmer and the workingman, in that it raises the cost of manufactured goods, which benefits almost exclusively, the manufacturers.

The tariff is the main issue so take your choice.--Bassano Mail.

SICK MAN OR NATION?

The Canadian dollar, in rising above par in the United States has, according to the South Bend, Ind., Tribune, done something so notable that Canadians may well take great pride in it. "It is not often," the Tribune says, "that the money of any other country goes above the American dollar." In this case it evidences, says the Tribune, "the soundness of business conditions in Canada and the increase of export trade."

This is diametrically opposed to the views of the leader of the Conservative party in Canada, who says that the tariff must be increased in order to keep the ship of state from foundering.

A WORD FOR CLASSICAL LEARNING

Hugh Pomeroy, secretary of the Los Angeles County Planning Commission—a man who deals constantly in cold facts and figures—says that his study of Latin has stood by him with greater benefit than any other subject of his school life. Happily, not all of the advocates of classical learning are gone, and it is high time some of the frills of modern education were curtailed to make room for some of the fundamentals. Even a "dead" language is better than live retrogression.

An example of optimism is the man who, tho lost on the desert, found that even the cactus had its good points.

The Canadian dollar outside of Canada has a purchasing power of 100 cents. For the Canadian dollar spent in Canada we receive about 70 cents worth of goods, the tariff accounts for the difference. The higher the tariff is raised the less we receive for our dollar.

Every dog has his day, but Coleman has 365 days every year in which to make its prosperity greater, its influence wider, and its people happier.

The fellow who used to look all around to see if any women were near before he swore now has a son who bums cigarettes from his girl friends.

The man who overdraws his statements in his business is the kind that usually overdraws his checking account at the bank.

Boosting the tariff does not raise wages. Boosting the tariff does raise the cost of living.

By trading at home you will know where your bread and butter comes from.

A motto for the Boy Scouts' big brothers: Do a good turn for Coleman daily.

Even a second-hand booster is better than a new knocker.

Why didn't we think of it before! The way to stop crime is to reduce the number of criminals.

Don't laugh at balloon pants. Remember those big sleeves worn in '98?

An "eye sore" to a community is one that can't see any good in it.

The real trouble with the country is, there is too much city.

Keep the home buyers yearning!

Lady, visiting a ship—"I suppose you have been in the navy so long you are accustomed to sea-legs?" Sailor, with single track mind—"Lady, I wasn't even looking."

Man is the only animal that can be skinned more than once.

A woman doesn't always get the last word—sometimes she is talking to another woman.—Pitt Panther.

Maintaining Ford Leadership

—Highest Quality at Lowest Cost

Introducing many improvements in the world's most popular line of motor cars.

The Fordor Sedan

Color—Black with black enamel running gear. Composite body. Nickel-plated radiator shell and headlamp rims. Leather-clad sun visor, closed at both ends. Standard equipment includes starter, cord tire, demountable rim, fenderlight, windshield wiper, rear view mirror and dash lamp.

The Tudor Sedan

Color—Dark Blue with black enamel running gear. All-steel body. Nickel-plated radiator shell and headlamp rims. Lower body both front and rear. One-piece ventilating windshield. Leather-clad sun visor of new design, closed at both ends. Standard equipment includes starter, cord tire, demountable rim, windshield wiper, rear view mirror and dash lamp.

The Coupe

Color—Dark Blue with black enamel running gear. All-steel body. Nickel-plated radiator shell and headlamp rims. One-piece ventilating windshield. Unusually wide rear deck with double compartment capacity. Leather-clad sun visor, closed at both ends. Standard equipment includes starter, cord tire, demountable rim, windshield wiper, rear view mirror and dash lamp.

The Runabout

Color—Black. All-steel body. Double ventilating windshield. Wide rear deck with compartment space greatly increased. Tool box under seat. Standard equipment includes cord tire, spare carrying opening with both doors, windshield wiper and nickel-plated headlamp rims.

The Touring

Color—Black. All-steel body of increasing design. Double ventilating windshield. Ford leather-clad cushion top. Tool box under front seat. Standard equipment includes cord tire, weather-proof side curtains opening with all doors, windshield wiper and nickel-plated headlamp rims.

Ford

CARS • TRUCKS • TRACTORS

MADE IN CANADA

BODY OF FORD CAR MATERIALLY IMPROVED

BUT MODEL "T" CHASSIS REMAINS PRACTICALLY THE SAME

W. R. Campbell, vice president and treasurer of the Ford Motor Co. of Canada, Limited, in a statement issued recently, following the announcement of the improved Ford bodies and chassis refinements, emphasizes the fact that there are no new Ford models.

"Bodies for Ford cars have been materially improved," he states, "but the model 'T' chassis remains practically the same. There are several important changes in the chassis, but they do not affect the basic design in any way detrimental to the servicing of the half million cars already produced by this company and now in use in Canada and overseas territory. The bodies in four types have been completely redesigned and built lower to contribute to better appearance, driving and riding comfort. All improvements and refinements are more pronounced than at any time since the adoption of the model 'T' chassis but they are entirely in accordance with the company's policy of giving the public the benefit of every improvement found practical. By preserving the model 'T' chassis design, the company safeguards the continued good service to fifty per cent of Canada's car owners and eighty per cent of trucks now in use throughout the Dominion."

Rankin gained a substantial lead and were declared the Alberta Champions for the year 1925. It was a glorious finish to a most glorious day and everyone voted they had been provided with a state of good, clean sport.

A smoker and banquet was held in the evening and the following officers elected to guide the destiny of the Association for another year: Hon. President, J. Betts, Calgary Brewing & Malting Co.

President, W. Marsh, Newcastle Quotting Club.

Vice-President, D. Black, Central Club, Calgary.

Secretary, G. H. Taylor, Calgary Quotting Association.

Executive: J. Miller, Victoria; T. Chevens, N. W. Ratepayers; W. Bell, Coleman; J. Stevenson, Newcastle; D. Fowler, N. Hill Calgary; J. Murray, Central, Calgary and W. Crichton, S. Calgary.

During the evening, several speeches were made, and Mr. Betts, of the Calgary Brewing & Malting Co. was called upon to make a few remarks. Mr. Betts stated that he was greatly surprised that the competition had met with such great success in the first year and said that he was of the opinion that the cup which had been presented that evening to the Coleman Club, was inadequate to the spirit that the competition had embodied, and he was pleased to say that a larger and more handsome trophy would be presented to the Provincial Association for competition next year.

W. Crichton, as President of the Calgary Quotting Association was called upon for a few remarks; and stated that in speaking for himself he was also speaking for everyone present, and felt sure that all present were exceedingly pleased with the promise made by Mr. Betts for the championship competition next year. He extended to the Coleman team the congratulations of the Calgary Association on their wonderful display, but hoped that they would meet with greater opposition in the future.

Coleman Quotting Team Wins

(Continued from Page 1)

The final contest was a fine matter piece of quidding by the Coleman team and great credit was due these four players from the Crow's Nest Pass. It was seen from the start that the Championship honors in the first year of its existence was taking a long trip from Calgary and it was early predicted and recognized that Coleman would win in this contest as in the former, the brothers Bell, and Penman and

WORLD HAPPENINGS
BRIEFLY TOLD

Since 1918 two billion dollars in revenue income tax and other duties penalties have been collected in the United States.

The claims of "Big Ben" in the Parliament Buildings at London were heard plainly in San Francisco over special telegraph and cable circuits.

Sir Francis Lewis Castle Flood, London, permanent secretary of agriculture and fisheries since 1920, has been appointed a member of the overseas settlement committee.

The aeroplane service of the European Union, comprising 15 airtel navigation companies, is to be continued during the winter this year for the first time.

Mrs. Isabella Forke, mother of Robert Forke, leader of the Progressive party in the House of Commons, died at the latter's home in Pipetown recently, aged 91 years.

Provision that one-third of his million dollar estate be used for the relief of school teachers, was a feature of the will of the late Simon Gratz, Philadelphia.

Field-Marshal Baron Plumer, new British high commissioner for Palestine, has arrived at Jerusalem and taken the oath under the commission of Palestine.

Professor Battista Grassi, the famous bacteriologist and physician, was known in the international medical circles as an investigator of malarial diseases.

The London Daily Mail says the British Government has ordered the arrest of all Communists concerned in plots which have been brought to light during the past few weeks to influence troops at the Aldershot camp and elsewhere.

The "newspaper plague" is the latest aerial stunt. A Springfield, Ill., newspaper tried delivery of papers by dropping them at the farmers' doors from an aeroplane, and three-fifths of the farmers reported safe arrival of their papers.

Will Live On Beans

Solving the Food Problem For Russia's Population

A newly discovered food-stuff, which may insure Soviet Russia against famine and enable the government to approach a solution of the food problem for millions of her population is occupying official attention in Moscow. The new food is the product of a Budapest physiologist, Dr. Ladislav Beres, who is conferring with the government regarding the production and distribution of Soybean flour, a food-stuff which is said to possess great nutritive value. Fifteen or twenty four mills are in operation, but so far un-equipped with the machinery to provide food for ten million persons. In nutritive value, one pound of Soybean flour equals two pounds of meat, plus a half pound of wheat flour and its usefulness as an aid to meat and egg substitute. It is estimated that the introduction of Soybean flour on the scale now contemplated would enable the Soviet Government to reduce its consumption of meat and eggs daily for export.

Uncomfortable Antiques

Old Furniture Not As Comfortable As Modern

While very high prices are paid for antique furniture we know that such furniture is not always the most comfortable in which to recline. When Queen Alexandra was visiting York many years ago as Princess of Wales she stayed at the treasurer's house and dined one night at the Deanery as the guest of Dean Percy Cust, she dropped into a lounge chair and remarked: "How splendid to drop into a comfortable chair, after too much William and Mary." Our ancestors carried themselves well, but it must have been at the cost of many weary hours spent in straight-backed chairs.

The Traders in Dogs
The prohibition of the traffic in dogs has the hearty support of all Canadians except the comparatively few wretched beings who are addicts. There is in this no room for the standards. The man or woman who trades on the weaknesses of those afflicted with the dog habit has no sympathies—it is one of the most despicable crimes. The splendid work, therefore, of the Royal Canadian Mounted Police in searching out those pariahs will have general commendation.—The Ottawa Journal.

When everybody says it, nobody knows it for certain.

Intervention in love is equivalent to a declaration of war.

W. N. U. 1594

Disease Among Eskimo

Adopting White Men's Methods May Lead to Extinction

Not many years will elapse before Eskimo will be exterminated by disease through adopting white man's method of habitation, declared Dr. D. E. Scott, who recently returned to Edmonton after spending one year at work in the delta of the Mackenzie River. He has been acting as medical officer to the Royal Canadian Mounted Police Arctic posts and working among Indians and Eskimos, in behalf of the department of Indian affairs.

While this prediction has been made by others in the past, Dr. Scott adds that Eskimos and Indians of the delta are also suffering from intestinal parasitic attacks, due to eating raw fish, rabbits and other meats. This, however, he claims, is not a serious problem to contend with, but such diseases as cancer and appendicitis, he states, are becoming too prevalent among the Indians.

In the old days, when snow houses were their temporary homes, the Eskimos were healthy, states the doctor, but since they commenced living in cabins and shacks, tuberculosis has broken out among them, and this dread menace threatens to wipe them out. Among the delta Indians, Dr. Scott found that in all but ten per cent. there were symptoms of tuberculosis. Their methods of living were such that the disease was on the increase.

Speaking of law and order in the north, Dr. Scott declared that the Eskimos and Indians of the Western Arctic regions are the most law-abiding people in the world, and he could not recollect one police case during the year he was among them.

In the eastern regions, however, where missionaries have not penetrated, an occasional murder was committed, but, states the doctor, this is really the Eskimo's own law at work.

How Russia Goes After Business
Fomenting Strikes in England in Order To Sell Their Own Goods

The Paris correspondent of the New York Times reveals that at the very time the ruling circles of Bolshevism are egging on the British coal miners in their strike threat, Moscow's agents were canvassing Europe for orders for Russian coal, to replace English and Welsh coal during the expected shortage.

That is the kind of friends for the laboring men of the world to have! Because they killed off, and are killing off, all the Russians who had brains and training enough to make industries successfully, and to market products successfully, the Bolsheviki find that their mines and factories cannot compete with the "capitalistic" industries of other nations. What is stupider than to get everybody else to go on strike so that Russia will have a chance to sell something?—Minneapolis Journal.

Ontario Makes Drastic Laws For Motorists
Must Obtain Driving Permits and May Have to Pass Examination

Every man and woman who drives a motor car in Ontario next year will first have to obtain a driving permit. Hon. G. S. Henry, minister of public works and highways, told the annual meeting of the Canadian Automobile Association at Toronto.

The issuance of these permits would, in all probability, in due course be followed by compulsory examination for all drivers, he said. Any conviction for traffic act infractions registered against a motorist would be entered upon his permit and could lead to the permanent revocation of license to drive.

May Abandon Drivables
U. S. Government Virtually Decides to Concentrate on Aeroplanes

The Shenandoah disaster probably will result in temporary, if not complete abandonment by the government of its lighter than air dirigible project. The Los Angeles may be sold for what it will bring, the Lakehurst air station probably closed, and the work on dirigibles and dirigible balloons will be concentrated on aeroplanes.

The programme had virtually been decided for reasons of economy, before the loss of the Shenandoah, and with this new proof of the practicability of dirigibles seems more certain than ever to be adopted.

The Age of Speed
The cities and towns of Rhode Island have set 35 miles an hour as the proper speed for autos on highways.

They contend that having spent vast sums on roads they cannot afford to have them cluttered with autos moving along at only 35 or 15 miles.

Children in Glasgow may travel any distance on the street railway for one penny. Some of the routes extend up twenty-five miles.

CLIPSE FASHIONS
Exclusive Patterns

Find Graves Of

Massacred Christians

Believed To Be Victims Of Jap Revolution in 1937

Dr. Earl R. Bull, Methodist Episcopal missionary in charge of work in Loo Choo Islands, Japan, has discovered the burial ground of 11,000 Christians believed to have been killed in an uprising during the revolution of 1937.

An inscription found near the grounds by Dr. Bull states that in all 33,000 Christians were slain, beheaded and buried.

The heads of the victims were buried in one spot and the bodies carried to another place, so there would be no chance of them uniting again, the inscription said.

The massacre practically wiped out all the Catholic converts in the country.

Open Big Conference

Seven Hundred Delegates Attend Child Welfare Conference at Geneva

An immense effort to improve the welfare of the world's children was launched at Geneva with the opening of the first child welfare congress, attended by 700 delegates from 58 countries, including the United States and many of the Latin-American Republics. Two hundred reports, dealing with various aspects of the child problem were submitted to the congress.

Andre Ottomari, Swiss minister of education, was elected president of the congress, and the Marchioness of Aberdeen was chosen to head the education section.

In the long buried city of Uti of the Chaldees, a piece of sculpture has been dug up, showing a lively picture of workmen carrying mortar up ladders.

A British ship building firm predicts that motorships will replace steamships. It is building 13 large vessels which will be operated by gasoline motors.

Poor Remuneration
For Technical Work

Very Discouraging For Those Who Go In For Professions

A New York newspaper is making an appeal for the better treatment of that city's engineering staff. It is an extraordinary sidelight on the bread and butter value of a technical education when college graduates must appeal for compensation almost as generous as that of plumbers, bricklayers and plasterers.

Of the engineers employed by the city of New York, and the same scale presumably is common throughout the continent, ten per cent. receive less than ditch diggers. About twelve per cent. earn as much as foremen of street labor crews; while the majority are not so well paid as the everyday mechanical craftsmen.

It is a peculiar fact that the so-called "white collar" employments, including bank clerks, bookkeepers, draughtsmen employed by architects, engineers who lay out the work for their better paid ditch diggers, and mining engineers, are all in comparison to the trades and to unskilled labor shockingly underpaid.

If there is not a racial turn for the better in these matters the next generation is going to witness a shortage of college men seeking technical educations. If a young man cannot make a decent living at his chosen profession after spending a month of money and time or five years of his time in a university, he is a fool to pursue it.—The Toronto Saturday Night.

China's Substitute For War

Boycott Has Become Favorite Weapon Against Other Nations

The Chinese are adopting in the use of the boycott. It is their substitute for war. News that in South China the boycott goods are included in the boycott declared against imports from Great Britain, will be disgusting to merchants and manufacturers in the Dominion who have dealings with the country. Fortunately they are relatively few, and in most cases it will be easy to refrain from the use of articles exported to China of marks showing the country of origin.

Our chief exports are wheat, wheat flour and lumber. There is also a growing trade in automobiles—over two hundred last year—and Canadian whisky, but both were doubtless mainly for the use of residents in the foreign quarters of the Chinese coast cities. We may conceivably lose for a time part of the flour trade that some western mills have been cultivating in China, but even the heaviest of the boycotters will have trouble in discriminating between Canadian wheat and that grown in Dakota and Minnesota.

The case is one in which Canada is penalized though no fault of her own because she sits the Union Jack. It must be set against the many others in which Canada secures marked advantages in foreign trade because she is a member of the British Commonwealth of Nations.—Toronto Globe.

Receive Fewer Immigrants

U. S. Immigration Reduced By 68 Per Cent. Due to New Laws

The new immigration law has reduced by approximately 68 per cent. the influx of foreigners to the United States, according to analysis of immigration statistics for 1924-25. Many nationals of foreign countries are leaving the United States for their home shores. Several countries have not only failed to fill their quotas, but the net immigration has been reduced by an emigration of aliens. Figures show that 26,848 more Italians left the United States than entered it during the year.

Great Britain, the Irish Free State and Sweden also failed to fill their quotas.

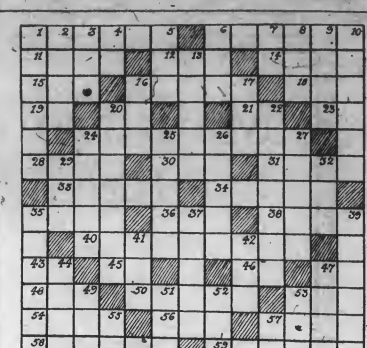

The total immigration was 293,814 for the year, as compared with 706,896 during the preceding year, before the two per cent. quota went into effect. Canada and Mexico are now the chief sources of immigrant labor, the influx from these countries yielding a total of 130,193 or nearly two-thirds of the net-immigration for the year.

Obeding Orders
The great Napoleon was once visiting an outpost at night and alone. On the road he was stopped by a French sentry who refused to let him pass. Napoleon argued but did not disclose his identity. Finally, the sentry said: "I have orders to let no one pass, and I would not disobey them if you were Napoleon Bonaparte himself."

Napoleon turned back. The next morning the sentry was promoted to be an officer and he later became one of the emperor's most brilliant generals.

Clerk—"Yes, sir; a lady's belt. What waist measure?"
Blotchy—"Oh, about as long as my left arm."

Crippled Veterans
Work For Princess

Have Nearly Completed Bedroom Suite Ordered by Lord Lascelles

A former waiter, market gardener and farm laborer are helping to make one of the most beautiful pieces of furniture produced during this generation. The cream lacquered bedroom furniture is being made by Lord Lascelles for Princess Mary Viscountess Lascelles.

A London Daily Mail reporter saw the master craftsman growing in the bands of the disabled workers of the Lord Roberts Memorial Workshops, Fulham Road, S.W., none of whom had any knowledge before the war in which he was wounded, of the trade he is now practicing.

Men with only one leg or one arm, and one who has lost two limbs have finished most of the woodwork in the seven-piece suite will be ready for the house of the editor and proprietor of the Daily Herald, and at one time was an employee of the Northern Crown Bank. An assassin of the brain was the cause of death. He is survived by his widow and six children. The funeral was held at Little Rook, Ark.

Discover Huge Jewel in Leningrad
Hidden in House of Former Tailor To One

In a house formerly occupied by the tailor to the czar, whose name is Lidal, and who now carries on a banking business in Paris, an immense quantity of gold and silver articles, set with precious stones and diamonds, has been discovered. One jewel box was found to contain 47 gold articles of elaborate workmanship and a number of the finest blue diamonds weighing 328 carats. The first lot included a great number of gold cigarette cases, snuff boxes, rings and tiepins.

Demand For Domestic

Saskatchewan Farmers' Wives Are In Need of Household Help

Saskatchewan farmers' wives are looking anxiously for the household help which the bureau of labor and industries of the Provincial Government arranged to be sent to them from the British Isles under the Imperial Government overseas settlement scheme. The bureau contracted for 103 domestics to be sent to Saskatchewan during the year and barely half have arrived. Most of the demand is from farm women.

Some men are so unhappy that if an earthquake should break out it wouldn't swallow the land until the day after they had paid the taxes on it.

BARRE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1915, by Doubleday, Page & Co.
"BARRE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog.
Is an Adaptation of This Story

SYNOPSIS

Barre, wandering in the woods, came upon Wakayoo, the black bear, and, fascinated, watched him knock off the top of the hood. He learned where Wakayoo cached his provisions, a discovery that solved the food problem for the young wolf-dog. One day he suddenly found himself face to face with Pirot, the trapper, and his daughter, Nepesee, the Willow, who a few days before had shot and slightly wounded him, thinking him a wolf. Nepesee now pursued Barre, who concealed himself beneath a great boulder.

CHAPTER VII.—Continued.

From where he lay Barre could see what happened. Scarcely had he crawled under the rock when Nepesee and Pirot appeared through the break in the dip, and stopped. The fact that they stopped thrilled Barre. They were afraid of Wakayoo. The big bear had two-thirds of the way across the meadow. The sun fell on him, so that his dark clone like black fur shined about him for a moment. Pirot did not kill for the love of killing. Necessity made him a conservationist. But he saw that in spite of the lateness of the season, Wakayoo's coat was splendid—and he raised his eye.

Barre saw this action. He saw, a moment later, something slip from the end of the gun, and then he heard that deafening crash that had come with his own but, when the Willow's bullet had hurled through his flesh. He turned his eyes swiftly to Wakayoo. The big bear had stumbled; he was on his knees; and then he struggled up and lumbered on.

The roar of the rifle came again, and a second time Wakayoo went down. Pirot could not miss at that distance. Wakayoo made a splendid jump. It was slaughter, yet for Pirot and Nepesee it was business—the business of life.

Barre was shivering. It was more from excitement than fear, for he had lost his own fear in the tragedy of these moments. A low growl came from his throat as he looked at Wakayoo, who had risen again and faced his enemies—his jaws gaping, his head swaying slowly, his legs weakening under him as the blood poured through his torn lungs. Barre whined—because Wakayoo had fished for him, because he had come to look on him as a friend, and because he knew it was

DOCTOR ADVISED AN OPERATION

Read Alberta Woman's Experience with Lydia E. Pinkham's Vegetable Compound

Provo, Alberta. "Perhaps you will remember sending me one of your books a year ago. I was in a bad condition and could not suffer with awful pains at times and could not do anything. The doctor told me I could not have children unless I went under an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now I have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. Adams, Box 54, Provo, Alberta.

Pains in Left Side

Lachine, Quebec. "I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back and with weakness and other troubles women so often have. I was this way about six months. I saw the Vegetable Compound advertised in the Montreal Standard, and I have taken four bottles of it. I am a very sick woman and I feel so much better I could not be without it. I also saw Lydia E. Pinkham's Sanative Wash. I recommend the medicines to my friends and I am willing for you to use this testimonial letter."—Mrs. W. F. Ross, 600 Notre Dame St., Lachine, Quebec.

W. N. G. 1394

pulling from out the black ages of the forests. The wolf held him quiet and motionless. Nepesee was looking about her. She was smiling. For a moment her face was turned toward him, and he saw the white shine of her teeth, and her beautiful eyes seemed glowing straight at him.

And then, suddenly, she dropped off her knees and peered under the rock. Their eyes met. For at least half a minute there was not a sound. Nepesee did not move, and her breath came so softly that Barre could not hear it.

Then she said, almost in a whisper: "Barre! Barre! Up! Barre!"

It was the first time Barre had heard his name, and there was something so soft and assuring in the sound of it that in spite of himself the dog in him responded to it in a whimper that just reached the Willow's ears. Slowly she stretched in an arm. It was bare and round and soft. Her mouth had darted forward the length of his body and buried his fangs in it easily. But something held him back. He knew that it was not an enemy; he knew that the dark eyes shining at him so wonderfully were not filled with the desire to harm—and the voice that came to him softly was like a strange and thrilling music.

"Barre! Barre! Up! Barre!" Over and over again the Willow called to him like that, while on her face she tried to draw herself a few inches farther under the rock. She could not do it. Her mouth was still a foot between her hand and Barre, and she could not wedge herself in any more. And then she saw now on the other side of the rock there was a shadow, shut in by a stone. If she had removed the stone, and come like that way—

She drew herself out and stood once in the sunshine. Her heart thrilled. Pirot was busy over his horse—and she would not leave him. She made an effort to move the stone which closed in the hollow under the big boulder, but it was wedged in tightly. Then she began digging with a stick.

Five minutes—and Nepesee could remove the stone. She tugged at it, inch by inch she dragged it out until at last it lay at her feet and the opening was ready for her body. She looked again toward Pirot. He was still busy, and she laughed softly as she snatched a big red-and-white bar handkerchief from about her shoulders. With this she would wipe her face and her hands. She dropped on her hands and knees and then lowered herself flat on the ground and began crawling into the hollow under the boulder. Barre had moved with the back of his head flattened against the rock he heard something which Nepesee had not heard; he had felt a slow and growing pressure, and from this pressure he had guessed his mother's peril and the pressure still followed. The mass of rock was settling! Nepesee did not see or hear or understand. She was calling to him more and more pleadingly.

"Barre—Barre—Barre!" Her head and shoulders and both arms went under the rock now. The glow of her eyes was very close to Barre. He whined. The thrill of a great and impending danger stirred in his blood. And then—

(To be continued)

The Oldest Living Thing

See Found in Solid Rock is Shown at Toronto

J. E. Wilson, Toronto builder, is exhibiting a bee, nestling in a solid block of blue stone, which he received recently from a quarry near Owego Sound. When the block of stone was split, says Mr. Wilson, it was found to contain a cavity in which was a rusebud, with a bee partly buried in its dried petals. After being dislodged the bee was able to crawl.

Accepting the story as fact, the bee in question is undoubtedly the oldest living creature, anything from 25,000 to millions of years old.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

"Jesse, I have told you again and again not to speak when older persons are talking, but wait until they stop."

"I've tried that already, mamma. They never do stop."

Historic Old Firm Fails

Blocking Manufacturers in England Flourished until They Gave Up Advertising

Immortalized by Charles Dickens in "Pickwick," the old-established firm of Day and Martin is to close. It was the blocking manufacturer by the firm that Sam Weller polished the boots of his master.

An extraordinary general meeting of shareholders passed a resolution that the concern should voluntarily wind up. It was stated that the company had been able to pay off all its old liabilities and to leave a little in hand. Beneath the announcement lies a romantic history of trade, for the firm of Day and Martin is known throughout the English-speaking world.

In mentioned by Dickens and Tom Hood, by George Eliot and Carlyle. The firm was founded, in 1770, more or less by accident. Mr. Martin, of Doncaster, who was a hairdresser and a surgeon-barber, befriended a weary soldier who had outstayed his leave. In order to show his gratitude, the soldier gave him a secret recipe for blocking, which he had constantly used on officers' coats. "Make blacking like that," he remarked, "and you will make a fortune." Mr. Martin, with his cousin, Mr. Day, decided to try the recipe. They did so, and so began the famous firm. Up to 1851, the firm prospered greatly. It then fell on evil days, through the unwillingness of the directors to advertise.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child; and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in the home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. They are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet, "Care of the Baby in Health and Sickness," will be sent free to any mother on request.

Old-fashioned ideas may be the best at times, but you can't run an auto by feeding it oats.

TEETHING BABIES DIE EVERY SUMMER

The hot weather is very hard on babies started to cut their teeth. On the first sign of any looseness of the gums the mother should give a few doses of

DE FOWLER'S EXTRACT OF WILD STRAWBERRY

This will quickly offset the diarrhoea, vomiting and purging, and, perhaps save the baby's life. Put up only by The T. Millura Co., Limited, Toronto, Ont.

Paper From Flax Straw

Alberta Expects to Establish a New Industry to Benefit Farmers

It is understood that paper from flax straw as a new Alberta industry is making some progress towards realization and the Provincial Government is continuing its investigation into the business possibilities of such an enterprise. Shetland's experimentation has already been done for the present, but further details in connection with getting a possible industry under way will be gathered from the government by the trade commissioner.

Pain English
"Jimmy told me he stayed under water for two minutes one day last summer."
"Really? It sounds as if he were amphibious."
"Well, if that's the Greek for him, you've hit it!"

Minard's Liniment for Dietsmper

Ceremonies Observed At Sea

Ships Go Through Certain Ceremonies When Passing Each Other

Ships at sea have a "language" of their own when they wish to converse with or signal to one another. Nearly all big steamers carry wireless installation, but in addition, every vessel of this type is provided with a steam whistle or siren, a mechanical telegraph (foghorn) and a bell. Bailing ships are obliged to have both a mechanical foghorn and a bell before they are allowed to enter or leave a port. When ships pass one another at sea certain ceremonies are observed.

Thus, a merchant vessel meeting a warship is expected to dip her flag in salute, a courtesy acknowledged by the naval commander in a similar manner. Liners are generally saluted by "trumps," while when one liner meets another the junior captain dips his house flag first.

COLOR IT NEW WITH

"DIAMOND DYES"

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in Hager's, silks, chamois, skirts, wools, drapes, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

One Explanation

"Too many motorists nowadays can spell go, but can't spell stop," a Detroit judge says. Which may be a fact, but it is not the explanation of the engine and only four wheels with brakes on—Kansas City Star.

The Oil of the People.—Many oils have come on the market, but Dr. Williams' Electric Oil continues to maintain its position and increase its sphere of influence each year. Its sterling qualities have brought it to the front rank of oils, and it can truly be said that the oil of the people has been benefited by it and would use no other preparation.

Tenacity of the British

Ability To Hang On Is Secret of Empire's Success

For the British the empire and its ways are set for eternity. Days and years are nothing. They just keep on going and although they make mistakes occasionally when Ramsay MacDonald gives up Singapore, or the coal miners tie up industry, or the dock workers, or a squadron loses, or nearly loses a naval battle, whether the empire is to survive, down deep they know that question is not worth asking. They do not deserve an answer. They may have to hang on a long time to an enemy who knows they are licked and get mad because they don't know it. All they know is that time runs long and all that's necessary is to keep at it. Not to good today, but tomorrow is another day.—Chicago Tribune.

Minard's Liniment used by physicians

May Queen Opens Bridge
Queen Kathleen cut the silver ribbon at the recent official opening of the new bridge over the South Thompson River at Kamloops, B.C., which cost \$235,000. A bevy of pretty girls representing Canada and her provinces took a prominent part in the ceremony.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing Co., Monrovia, California. The Bayer Manufacturing Co., Monrovia, California, is the only manufacturer of Bayer Aspirin in the world. Bayer Aspirin will be stamped with their general trade mark, the "Bayer Cross."

1b Package

KRAFT-K CHEESE

A handy size package for occasions when half a pound is "just right."

The Importance Of Faith

Doctors Like Patients Who Believe They Will Recover

A Swiss watchmaker who died recently at the age of 100 was diagnosed by physicians in his youth as incurably tubercular. He studied his own case, adopted a systematic, reasoned plan of living and continued in the enjoyment of an active life far beyond the usual span. He had the will to live, call it by whatever name you wish.

Nurses, and physicians, know how important is the patient's state of mind. A will to live, a strong desire to get well, often is the determining factor in a recovery. A cheerful, buoyant manner is not the least of a good physician's attributes.—The Buffalo Express.

Doc—"Well, what's troubling you?"

Patient—"Frequent pains in the back."

Doc—"Here are some pills; take one fifteen minutes before pains start."

MURINE

Keeps Eyes Clear, Bright and Beautiful

Write Murine Co., Chicago, for Free Card

"My dear, the doctor says a brisk walk before going to bed will cure my insomnia."

"Well," returned his wife, "I'll clear the room so that you can walk, and you may as well take the baby with you."

Make your own mustard Pickles

Home-made mustard pickles. How delicious—and how easy to put up. Here's the recipe:

MUSTARD PICKLES

1 qt. small onions 1 large cauliflower
1 qt. cucumbers 2 heads celery

Peel onions, cut vegetables in small pieces, cover with weak beer and let stand overnight. In the morning drain to a bowl and drain off.

Take 2 cups brown sugar, 1 cup flour, 6 tablespoons Keen's Mustard, 1 tablespoonful turmeric and 2 chairs vinegar. Boil this mixture for twenty minutes, stirring constantly. Pour over vegetables hot, and stand ten days, stirring every day, then bottle.

Keen's Mustard

aids digestion

Genuine

KEEN'S

The production of gold for the year 1924 as reported by the Dominion Bureau of Statistics, showed an output of 1,826,880 fine ounces valued at \$31,532,402, an increase of 2.4 per cent above the total of the previous year. The production in 1924 was the greatest in the history of Canada. In the year 1900 when the production of the Yukon placers was at its height, the total lode and placer gold produced in Canada was 1,350,087 ounces valued at \$27,908,168.

Canada's exports during 1924 included 12,772 motor trucks, 48,883 passenger automobiles, and parts valued at \$4,992,049 giving an aggregate value of \$31,501,442, according to the Bureau of Statistics.

Parcel Post Limit Increased
Taking effect at once, the limit on parcels mailed by parcel post, has been increased from 11 to 16 pounds. The Canadian postal service is thus taking one more step forward in its service to the public.

T. B. Survey

That children born in Alberta show less tendency to tuberculosis than those born in other countries is disclosed in the report of the survey of school children undertaken in 1924 by the Alberta tuberculosis association, which report has recently been published. In this survey a total of 1051 school children in various parts of the province were examined. Of this number 822 were children born in Alberta and only 11 per cent of these showed reaction to the tuberculin test. Reactions in children born in other countries showed percentages ranging from 20 to 36. Out of the total of 1,051, there were 144 reactors, or only 13.67 per cent.

Say It With Flowers

When you require flowers artistically arranged for any occasion, at moderate prices, and of unexcelled quality, phone No. 13, THE COLEMAN TRADING CO., LTD., agents for Frache Bros., Lethbridge.

Winning New Customers

This ever-present task of the business man is one that Advertising can most efficiently perform.

Advertising in the Coleman Journal would carry any message you desire into every home in this community. It would spread the "news" about new merchandise, special sales or new store policies quickly and thoroughly.

Take a friendly interest in telling the "buyers" of this town what you have for sale that is of service to them and you will win new customers constantly.
